

Extracurricular Activities

The Mount Carmel community believes strongly that the key to student success, as well as enjoyment of high school, is involvement. A wide variety of clubs, organizations, and athletics are offered at Mount Carmel. The staff encourages each student to invest himself in one or more activities. It is such extracurricular endeavors that a young man has the opportunity to establish goals, to work closely with others in a common effort, and have a lot of fun. Consequently, our athletic programs, clubs, and social service organizations are an essential part of the Mount Carmel experience. The student's physical, social, and emotional growth is enhanced with these opportunities to develop specific skills.
